The Zoning Administrator shall fix a reasonable time for the hearing on the application and give notice thereof as required by law.

- (a) The variance shall not allow a use that is prohibited in the zoning district in which the subject property is located.
- (b) The variance must be in harmony with the general purpose and intent of this Ordinance.
- (c) The terms of the variance must be consistent with the comprehensive plan.
- (d) The landowner must show that the variance is necessary to alleviate practical difficulties or particular hardship resulting from strict application of the ordinance.

“Hardship” as used in connection with the granting of a variance means:

1. The property in question cannot be put to a reasonable use if used under the conditions allowed by this Ordinance;
2. The plight of the landowner is due to circumstances unique to the property, not created by the landowner or a previous landowner;
3. The variance, if granted, will not alter the essential character of the locality.

If the variance request meets all of the conditions cited above, the variance may be granted. Economic considerations alone shall not constitute a hardship if a reasonable use for the property exists under the terms of this Ordinance. Access to direct sunlight in the case of solar energy systems shall constitute grounds for granting a variance.

#### 4.7.2 Procedure.

- (a) The person applying for a variance shall fill out and submit to the Zoning Administrator a variance application which shall include a statement of the difficulties or particular hardships claimed, along with the filing fee.
- (b) The Zoning Administrator shall refer the application along with all related information to the Planning Commission which shall act in an advisory role to the Board of Adjustment.
- (c) The Planning Commission shall hold a public hearing on the request for variance. Notice of the time, place and purpose of the public hearing shall be according to *Minnesota Statutes, section 462.354 Subd. 2; or successor statute.*
- (d) The applicant(s) or their representative shall appear before the Planning Commission at the public hearing in order to present evidence concerning the proposed variance.
- (e) The Planning Commission may recommend the imposing of conditions on the granting of variances to insure compliance and to protect adjacent properties and the public interest. The Board of Adjustment may place additional conditions upon the issuance of a variance.
- (f) The Planning Commission shall make a finding of facts and recommend to the Town Board (acting as the Board of Adjustment) such actions or conditions relating to the request. Such findings shall be entered in and made a part of the written record of the Board of Adjustment.
- (g) Upon receiving the report and recommendation of the Planning Commission, the Town Board, acting as the Board of Adjustment, shall place the request on the agenda for the next regular meeting.
- (h) Upon receiving the report and recommendation of the Planning Commission, the Town Board acting as the Board of Adjustment shall either:
  1. Approve or deny the request as recommended by the Planning Commission; and
  2. Concur or not concur with the Planning Commission with regard to modifications, alterations or conditions that differ from those recommended by the Planning Commission. Such modifications, alterations or conditions that differ from the Planning Commission shall be in writing and made part of the Town Board's records; or
  3. Refer the recommendation back to the Planning Commission for further consideration. This procedure shall be followed only one time for each variance request. If the request is referred back to the Planning Commission, the applicant shall be notified of the extension of time line for action on the request.
- (i) Approval of any variance or appeal shall require passage by a two-thirds (2/3) vote of the full Town Board. The Zoning Administrator or Town Clerk shall give the applicant written notice of the Town Board's action. The written notice shall include the findings of fact.

- (j) Decisions of the Planning Commission shall be advisory to the Town Board. The decisions of the Town Board acting as the Board of Adjustment shall be subject to judicial review.
- (k) No resubmission of a variance application shall be allowed for six (6) months without new evidence related to the variance.
- (l) Granted variances become void if the applicant does not proceed substantially on the work within six (6) months. To proceed substantially means to make visible improvement to the property. One or more extensions of not more than six (6) months each may be granted by the Board of Adjustment for good cause.
- (m) An application for variance will not be accepted from anyone who is not an owner of land for which the application is made.
- (n) A certified copy of all variances that are granted by the Town Board shall be filed at the office of the Stearns County Recorder.

- (b) The use will be sufficiently compatible or separated by distance or screening from adjacent agriculturally or residentially zoned or used land so that existing property will not be depreciated in value and there will be no deterrence to development of vacant land.
- (c) The structure and site shall have an appearance that will not have an adverse effect upon adjacent properties.
- (d) The use in the opinion of the Planning Commission and Town Board is reasonably related to the existing land use.

The written notice shall also contain the nature of the violation and the facts that support the conclusions that a violation exists.
